www.linkedin.com/in/chiagoziemjames <https://github.com/James-Leonard>

Personal statement

Productive developer with a passion for creative solutions. Dedicated to learning additional technologies and coding languages (currently enrolled in a LinkedIn Learning course). Regularly attend the Google Developer Group and various Tech meetups. Created a bar inventory website for a local hotel. Looking for a Junior position at a great company to be a hard-working asset to any team, to learn, grow and develop long-term.

Work Experience

Software Developer, Omar and Blasius

04/2019 – Present

Abuja, Nigeria

Responsibilities & Achievements

Designed and developed a bar inventory management system. My system provided an interface for hotel managers and bartenders to view and track data from drinks sold in the bar.

- Worked at an independent level, while also serving as an effective and enthusiastic collaborator.
- Produced educational video content which resulted in 350+ views on youtube.
- Saved a customer ₦100k in 6 month by building a bar management system which reduced discrepancy in sales.
- Created views and templates using python and django to develop 70+ user friendly interface.
- Efficiently performed a multivariate statistical analysis of data using Matlab, gaining a 95% accuracy rate in terms of statistical data interpretation and analysis.
